< ABOUT ME />

Full-Stack Developer and Graphic Designer with 14+ years of experience in web development and creative design. Curious, self-taught, and adaptable, I specialize in building web applications that are both functional and visually refined. My career started with WordPress solutions, but I now focus on modern frameworks, scalable backends, and cloud-ready infrastructures.

I bring together creativity, technical precision, and hands-on DevOps knowledge to deliver secure, adaptable, and efficient digital products. Looking for opportunities to join creative teams, explore new technologies, and contribute to high-impact projects.

< EXPERIENCE />

* **Freelance Web & App Developer** (2022 - Present)

Develop responsive websites for diverse clients optimized for performance, scalability, and user experience. Expanding into full-stack development with Svelte/SvelteKit, Node.js, PostgreSQL, and Flutter. Integrate REST APIs, implement performance optimizations, and create cross-platform apps. Manage VPS hosting, Dockerized environments, and CI/CD pipelines for reliable deployments. Implement AI-assisted workflows to streamline development and project efficiency.

* **ANIMA . Founder and main illustrator** (2022 - Present)

Create scientific illustration projects (watercolor and digital) for environmental awareness. Design digital artwork, editorial pieces, and nature-inspired prints.

* **Letrapegada Diseño . Founder and main developer** (2011 - 2022)

Led a digital design studio delivering over 40 custom web projects. Built a variety of WordPress themes and plugins with integrated e-commerce platforms. Developed native Android apps as well as cross-platform applications for iOS and Android. Provided ongoing client support for hosting setup, domain management, SSL certificates, and other technical web configurations.
